

What sets our school apart?

Academia:

One would assume that at a school where religion is emphasized there would be a loss in academics. At Alazhar, that is not the case.

Alazhar School offers a comprehensive curriculum including all core academic subjects highlighted under the Florida Standards and aligned with Common Core standards. The curriculum implemented at Alazhar fosters awareness of the relationship between Islam and all core academic subjects. This curriculum provides a link between the learning process and the actual environment allowing students gain in depth knowledge to truly "live" Islam, setting Alazhar School apart from others.

Standardized Examination

Most of our students scored between the average to high average range, with students ranking in the 90th percentile in Math and the 85th percentile in reading on the SAT 10th Edition.

County Competitions

Our Students are active participants in the Broward county Science & History Fairs. For the past 8 years, our students ranked in the Top 3 for every category for Broward County Science Fair with many ranking in the 1st place and others proceeding onto State Level Competition to win 2nd place. As for History Fair, many of our students ranked in the Top 4.

Alumni

Alazhar School has a very close relationship with its alumni students. Most of our graduates come back to volunteer and help in various events such as Career Day, in house Science fair, History Fair and Water Day.

Preschool

As the foundation of Alazhar School, our pre-school uses a hands-on, innovative approach to learning with activities ranging from circle time, play time, story time, role playing, art and music and movement, in addition to Arabic and Quran classes. Alazhar Preschool strives to promote and encourage children to become competent in all areas of development with a low student to teacher ratio that supports the social- emotional, educational and Islamic growth of each child.

The preschool is A.P.P.L.E accredited and a Florida Gold Seal Quality Care Program. In addition, the preschool program has a "5 star+" rating from the Broward County Quality Rating and Improvement System.
